IACC ENVIRONMENTAL POLICY STATEMENT

The International Association of Conference Centers shall be a leader in creating environmental awareness among IACC member properties and their clients. We do this by communicating the initiatives that we have researched and identified as having a lesser environmental impact; by encouraging IACC members to adopt these environmentally responsible practices into their business operations; and by continuous improvement to our own management efforts; all with the goal of reducing our carbon footprint and environmental impact.

CODE OF SUSTAINABILITY

The International Association of Conference Centers has a rigorous [Code of Sustainability](#) which includes 59 tenets in the following areas:

- Education, Awareness and Public Declaration
- Waste Management
- Recycling
- Reuse
- Water Conservation
- Purchasing
- Energy Management
- Air Quality
- Food & Beverage

By signing the Code of Sustainability, IACC members certify that their organization: (1) has agreed to sustain and support IACC's Environmental Policy; (2) has adopted and currently adheres to at least 75% of the code; and (3) willingly joins other member organizations that have signed the code in an association-wide effort to continually strive for greater sustainability.

Members that have signed the Code of Sustainability are recognized in three tiers: To qualify for the **Platinum** tier, they have 100% of the code's practices in place; for **Gold** tier, 85% of the practices are in place; and for the **Silver** tier, 75% of

the practices are in place.

IACC monitors and updates the code on a periodic basis to ensure that it reflects the current best practices of the industry.

Platinum Tier
