

This conference is Paper-Lite!

ASAE & The Center are working on ways to reduce the amount of paper we use at our conferences and symposia. This is an effort both to be responsible toward our environment and to increase the quality and timeliness of the resources provided through this learning experience. However, we do know that completely replacing paper altogether can make the learning experience difficult for some, which is why this program will be light on paper, rather than completely paper-free.

Electronic program materials will replace most paper resources and will be accessible online before, during, and after the program on a website that is designed just for you, the attendee. To help you store and track your notes, a session presentation booklet containing presentation slides, as well as a one-gigabyte jump drive will be provided on-site. We also have arranged for wireless access during the conference to encourage you to join us in our goal to be as paper-lite as possible, so don't forget your laptops! And, of course, after the conference, you will receive an evaluation form via e-mail.

We honestly do try to adjust meeting arrangements, content, and operations based on your feedback, and we think that radically reducing paper while ensuring optimal access to materials is a step that will enable everyone to get what they need from the program. We are excited to try this unique way of providing information! If you have questions or concerns, please e-mail us at centeru@asaecenter.org.

We welcome your feedback!
