mem360.io

AMS built on ORACLE® NETSUITE

Description:

Mem360 (www.mem360.io) is a true 360-degree Association Management System (AMS) built on the NetSuite platform. NetSuite provides a mature, robust, proven, and secure platform to build unified industry solutions. By using the same framework and tools utilized by NetSuite, Mem360 is able to seamlessly extend NetSuite's functionality.

Associations today deal with disparate system which are tied together with integrations that may range from file exchanges to custom developed interfaces. Data duplication and data inconsistency are just a few challenges that come with integrations. Mem360 brings all AMS,

CRM, ERP and FMS functionality to one platform, eliminating the need for integrations. Mem360 is the single source of your constituent's true 360-degree data.

Mem360 includes a comprehensive suite of modules to manage, engage, and steward your members, advocates, supporters, learners and Certificants.
