

Vocalmeet

Vocalmeet provides cost-efficient technology platforms for associations to offer their courses online. Whether you are a small or large association, Vocalmeet has the right solution for you.

Our integrated learning platform allows your association to host on-demand courses, offer webinars and live stream events – all within one platform. Having a streamlined platform helps increase staff efficiency, as well as online sales.

Our mobile-friendly platform allows users to complete their courses anywhere, anytime. No need to download additional software or apps. Whatever your continuing education requirements are, we have the technology to meet those requirements on any device. All of our platforms also come with a flexible e-commerce system for seamless user registration and payment.

Our learning platform is both modular and scalable. This means that your association will pay only for the solutions and features that you need, when you need them.
