

Digitell

Digitell, Inc. is a Digital Multimedia Agency that specializes in executing online events, such as live streaming and virtual events as well as delivering conference recording, and video production services. Digitell has developed a Digital Experience Platform, OPUS DX which allows organizations to build and execute virtual events, archive and sell their educational content and much more. With over 35 years' experience servicing 150 organizations, Digitell utilizes this wealth of experience and knowledge to assist their clients in developing customized and cutting edge solutions to capturing, delivering and managing their education. At Digitell, we have built the most reliable platform and use the most reliable technology to provide the absolute best experience for our clients and the attendees.
