# Event Tech Group by Community Brands

Transform the way you host events with robust virtual conference software featuring custom lobbies, networking lounges, exhibit booths, webcast auditoriums, and more. This immersive experience will make your attendees feel like they are at a live event as they enter various virtual spaces and chat live with other attendees. The Virtual Event Center is ideal for trade shows, conferences, career fairs and any event that features presentations, demos, education, and brand experiences. Virtual Event Center gives you the tools to host events from a 1-hour session with 20 people to events with thousands of people, hundreds of sessions, exhibitors, and complex event agendas. Don't lose touch with your community– Go virtual! Learn more at www.eventtechsoftware.com
