You are receiving this email because you attended our the 33rd Annual Golf Classic and Non-golfer wine Event. Though we all had a wonderful time yesterday, unfortunately, we were just alerted that an attendee has tested positive for COVID-19. They have been encouraged to reach out and inform anyone with whom they were in close proximity. Additionally and as a precaution, please share this email with those you interacted with at the event yesterday.

I just spoke with the Virginia Department of Health and they provided me with the following general information:

Vaccinated Individuals with no symptoms nor immunocompromised

- If you are vaccinated with no symptoms nor immunocompromised, there is no need to quarantine, however, you are highly encouraged to obtain a COVID-19 test 3-5 days after the exposure.

Unvaccinated Individuals

- If you are Unvaccinated, you should quarantine immediately for 14 consecutive days and call your doctor regarding obtaining a COVID-19 test.

Diagnosed with COVID-19 in the last 3 months

- If you have had COVID-19 in the last 3 months, you should obtain a COVID-19 test 3-5 days after the exposure.

Everyone should watch for symptoms, wear a mask, take extra precautions by washing your hands and utilizing hand sanitizer and maintain a 6ft distance when around others.

If you do get diagnosed with COVID-19, please call your local health department for further information.

Please click [here](#) to view CDC's guidelines if you need further information.

Please reach out with any questions.

Best,

Patrick Algyer
